

# Eli Bodovinitz

Wimauma, Florida | (763) 489 8813 | [ebodovinitz@gmail.com](mailto:ebodovinitz@gmail.com) | <https://elibodovinitz.vercel.app/>

## Technical Skills

---

- JavaScript, TypeScript, C#, Python, SQL
- React.js, Next.js, Tailwind, HTML, CSS
- MongoDB, Supabase, Vercel, GitHub
- Microsoft Office Suite, Google Workspace

## Work History

---

### Full Stack Web Developer | Delivery Jobs LLC | *October 2023 to present*

- Helped build and maintained a responsive Next.js and JavaScript web application.
- Integrated Stripe for secure payment processing and MongoDB for database management.
- Implemented SEO strategies and optimized site performance to increase traffic.
- Managed end-to-end product development, including UX/UI, authentication, and overall site functionality.
- Executed digital marketing campaigns (Google Ads) to drive sign-ups.

### Operations Manager | White Sands Delivery Inc | *April 2021 to October 2023*

- Managed a team of 20 to 40 drivers, collaborating with three other managers to oversee daily operations.
- Oversaw daily logistics and delivery operations to ensure efficiency and on-time performance.
- Managed driver scheduling, route optimization, and fleet coordination.
- Ensured compliance with DOT regulation, safety standards, and company policies.
- Monitored key performance metrics and optimized workflows to improve service quality.

## Projects

---

### String Vault | *TypeScript, Next, React, Tailwind, Supabase, Vercel*

- A web application designed for guitar enthusiasts to catalog their guitar collections, track serial numbers, cost, maintenance, and share photos of their instruments.
- Developed a responsive and user-friendly UI for seamless navigation and collection management.
- The site uses OAuth to sign up and Supabase for the database.
