

Eli Bodovinitz

Wimauma, Florida | (763) 489 8813 | ebodovinitz@gmail.com | <https://elibodovinitz.vercel.app/>

Technical Skills

- JavaScript, TypeScript, C#, HTML5, CSS3
- React.js, Node.js, Next.js, .NET Core, Tailwind
- SQL, MongoDB, Supabase, MS SQL Server
- Google Cloud, Vercel, Azure, MS Office Suite

Work History

Full Stack Web Developer | Delivery Jobs LLC | *October 2023 to March 2025*

- Built and maintained a responsive Next.js and JavaScript web application.
- Integrated Stripe for secure payment processing, MongoDB for data storage, Google Geolocation API for distance-based searching, and Pusher for real-time messaging.
- Implemented SEO strategies and optimized site performance to increase traffic.
- Executed digital marketing campaigns (Google Ads) to drive sign-ups.

Operations Manager | White Sands Delivery Inc | *April 2021 to October 2023*

- Managed a team of 40 drivers, collaborating with three other managers to oversee daily operations.
- Managed driver scheduling, route optimization, and fleet coordination.
- Ensured compliance with DOT regulations, safety standards, and company policies.
- Monitored key performance metrics and optimized workflows to improve service quality.

Projects

String Vault | *TypeScript, React.js, Next.js, Tailwind CSS, Supabase, Vercel, OAuth*

- A web application for guitar enthusiasts to catalog their guitar collection, track serial numbers, cost, maintenance, and share photos of their instruments.
- <https://stringvault.vercel.app/>
- https://github.com/elibodo/string_vault

Poker Stats | *JavaScript, React.js, .NET Core, C#, Microsoft SQL Server, Azure, HTML5, CSS3*

- An application I made to track my poker statistics and analyze my wins/losses over time and view them on a graph.
- Database is hosted on Azure and has CRUD functionality.
- <https://github.com/elibodo/pokerStats>

Emordnilap | *JavaScript, React.js, Node.js, Express.js, MongoDB, HTML5, CSS3*

- A web application to verify, save, and view emordnilaps and palindromes and their definitions.
- Uses a dictionary API to verify if a word is valid and uses a MongoDB database to store the words and definitions.
- <https://github.com/elibodo/emordnilap>

Education

AS, Computer Programming and Analysis | Hillsborough Community College | *Tampa, FL*

- 3.714 GPA | Honors | Dean's List
- Developed applications using C#, Visual Basic, C, Java, and Python.
- Gained experience in software development, database management, and application design.
- Learned debugging, troubleshooting, problem-solving, and analytical skills.

CCC, Computer Programming Specialist | Hillsborough Community College | *Tampa, FL*

- Concentrated on the .NET framework, developing projects primarily in C# and Visual Basic.
- Worked with databases, algorithms, and data structures to build efficient application.
