

Eli Bodovinitz

Wimauma, Florida | (763) 489 8813 | ebodovinitz@gmail.com | <https://elibodovinitz.vercel.app/>

Technical Skills

- JavaScript, TypeScript, C#, HTML5, CSS3
- React.js, Node.js, Next.js, .NET Core, Tailwind
- SQL, MongoDB, Supabase, MS SQL Server
- Google Cloud, Vercel, Azure, MS Office Suite

Work History

AV Programmer | Power Design Inc | *June 2025 to Present*

- Built JSX/TSX front-end interfaces for AV control systems, connecting to Crestron SIMPL Windows and C# backends.
- Developed custom C# drivers for Crestron Home to support additional hardware and system features.
- Integrated music streaming platforms using APIs and webhooks for real-time communication.
- Documented interface schemas and integration workflows to support maintainability and clear technical handoff.

Full Stack Web Developer | Delivery Jobs LLC | *October 2023 to June 2025*

- Developed and maintained a responsive Next.js application with JavaScript.
- Integrated Stripe for payment processing, MongoDB for data management, Google Geolocation API for distance-based job search, and Pusher for real-time messaging.
- Improved SEO and overall performance to increase organic traffic and user engagement.
- Led digital marketing efforts using Google Ads to drive employer sign-ups and job seeker acquisition.

Operations Manager | White Sands Delivery Inc | *April 2021 to October 2023*

- Supervised a team of 40 drivers and coordinated daily logistics alongside three operations managers.
- Optimized routing, scheduling, and fleet deployment to maximize delivery efficiency.
- Ensured compliance with DOT requirements, safety policies, and legal standards.
- Tracked performance metrics and implemented process improvements to enhance reliability and service quality.

Projects

String Vault | *TypeScript, React.js, Next.js, Tailwind CSS, Supabase, Vercel, OAuth*

- A web application for guitar enthusiasts to catalog their guitar collection, track serial numbers, cost, maintenance, and share photos of their instruments.
- <https://stringvault.vercel.app/>
- https://github.com/elibodo/string_vault

Poker Stats | *JavaScript, React.js, .NET Core, C#, Microsoft SQL Server, Azure, HTML5, CSS3*

- Developed an application to track and analyze poker statistics over time, with interactive graphs and CRUD functionality on an Azure-hosted database.
- <https://github.com/elibodo/pokerStats>

Emordnilap | *JavaScript, React.js, Node.js, Express.js, MongoDB, HTML5, CSS3*

- Developed a web application to verify, store, and display emordnilaps and palindromes with definitions, using a dictionary API for validation and MongoDB for persistent storage.
- <https://github.com/elibodo/emordnilap>

Education

AS, Computer Programming and Analysis | Hillsborough Community College | *Tampa, FL*

CCC, Computer Programming Specialist | Hillsborough Community College | *Tampa, FL*
